

The Regional Entry Program

Year one of The Eden Energy Medicine Certification Program

Is Coming to the Chicago Area

Energy Medicine, as pioneered by Donna Eden, gives you techniques to assist in healing and wellness.

Do you, someone in your family, or your clients live with anxiety, depression, or stress? With fatigue, chronic pain, ADD, ADHD or OCD? Maybe phobias, insomnia, or addictions that keep them from living life to its fullest? Do they struggle with poor memory, an autoimmune disease, or a learning challenge? Energy Medicine offers you solutions. Now you can Discover Energy Medicine with Lisa Buford who offers the Eden Energy Medicine Regional Entry Program.

This one-year program is designed for those people desiring in-depth coursework and supervision in Donna Eden's style of Energy Medicine. The goal of the program is to help anyone obtain a firm foundation in the body of work Donna has created over the past 30 years, and to develop the skill levels necessary to begin using these techniques regularly in life, either with oneself, family and friends, or in a professional practice.

Who Should Attend?

~ Anyone wanting to learn powerful healing modalities to maintain and enhance their own health and wellbeing and that of friends and family.

~Healing arts professionals desiring to expand their skills, and those wishing to develop a healing arts practice. EEM students who want to continue classes after having taken time off.

~EEM students wishing to repeat a previously taken class.

Successful completion of this series of 4 classes completes Year 1 of the EEM Certification Program. Students are eligible to go on to Year 2 of the main CP which is held quarterly in Phoenix AZ. This program has two options: A Wellness Track for those wanting to learn for themselves, and a Certification Track for those wanting to be listed on the website as Certified Eden Energy Medicine Practitioners. The only difference between the two is that the certification track requires successful completion of a demonstration of skills in addition to the written exam that is required for both tracks.
